Dear Sir, - I need not say on which side my sympathies  
 lie. I have already sufficiently indicated this in my paper.  
 As to the questions which agitate you in Massachusetts are scarcely  
 known in Ohio, I have thought it inexpedient to engage in any  
 discussion of them in the Phil. I see the Liberator seizes on

The appointment of Mr. Bayley as an agent and lecturer, by our Com<sup>tee</sup>. There is not the slightest reason why it should do so. Mr. Bayley was appointed at my instance. He is a man of a peculiarly high sense of honor, I knew that if he accepted of a commission from our Society, he would consider himself pledged, ~~to do~~ to take an other topic. He accepted, and assured me that he did not feel himself so pledged. Further, he is far more deeply interested in Abolitionism, than Perfectionism, or Non Resistance.

Mr. Bayley had his choice - either to go onto Boston, to participate in the operations of the Universal Reformers - to which he was invited by Mr. Garrison, or to stay here and lecture on Abolitionism. He preferred the latter, decidedly.

I am much pleased with the manner in which Mr. Wright conducts his "Abolitionist." He has every way the advantage of Garrison - I think. His good temper is admirable - I hope he'll never lose it.

Yours sincerely  
E. Bayley jr
